1. Identification

Name of the substance or mixture (trade name) | Resonance Bond Testing Couplant

Product code | 3308193

Major recommended uses for the substance or mixture | Couplant.

Specific restrictions for use of the substance or mixture | None known.

Manufacturer/Importer/Distributor information

| Company name | Evident Scientific |
| Address | 48 Woerd Avenue, Waltham, MA 02453, USA |
| Telephone number | +1-781-419-3900 |

2. Hazards identification

Classification of the substance or mixture

| Physical hazards | Not classified. |
| Health hazards | Not classified. |
| Environmental hazards | Not classified. |

GHS labeling elements, including precautionary statements

| Hazard symbol(s) | None. |
| Signal word | None. |
| Hazard statement(s) | The mixture does not meet the criteria for classification. |

Precautionary statement(s)

| Prevention | Observe good industrial hygiene practices. |
| Response | Wash hands after handling. |
| Storage | Store away from incompatible materials. |
| Disposal | Dispose of waste and residues in accordance with local authority requirements. |

Other hazards which do not result in classification | None known. |

Supplemental information | None. |

3. Composition/information on ingredients

Mixture

The components are not hazardous or are below required disclosure limits.

4. First-aid measures

First-aid measures

| Inhalation | Move to fresh air. Call a physician if symptoms develop or persist. |
| Skin contact | Wash off with soap and water. Get medical attention if irritation develops and persists. |
| Eye contact | Rinse with water. Get medical attention if irritation develops and persists. |
| Ingestion | Rinse mouth. Get medical attention if symptoms occur. |
| Most important symptoms/effects, acute and delayed | Direct contact with eyes may cause temporary irritation. May cause allergic skin disorders in sensitive individuals. |

Personal protection for first-aid responders | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. |
Notes to physician

Treat symptomatically.

5. Fire-fighting measures

Means of fire extinguishing

Suitable extinguishing media
Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media
Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical
During fire, gases hazardous to health may be formed.

Special fire fighting procedures
Move containers from fire area if you can do so without risk. Cool containers exposed to flames with water until well after the fire is out.

Protective measures taken by firefighting crews
Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Specific methods
Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards
Will burn if involved in a fire.

6. Control measures for spills and leaks

Personal precautions, protective equipment and emergency procedures

To be taken by those who are not involved in rendering emergency services
Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.

To be taken by those who are involved in rendering emergency services
Keep unnecessary personnel away. Eliminate all ignition sources (no smoking, flares, sparks or flames in immediate area). In case of spills, beware of slippery floors and surfaces. Wear appropriate protective equipment and clothing during clean-up.

Environmental precautions
Avoid discharge into drains, water courses or onto the ground.

Methods and materials for containment and cleaning up
Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Notification procedures
In the event of a spill or accidental release, notify relevant authorities in accordance with all applicable regulations.

7. Handling and storage

Precautions for safe handling
Keep away from heat, spark, open flames and other sources of ignition. Avoid prolonged exposure. Provide adequate ventilation. In case of spills, beware of slippery floors and surfaces. Use personal protection recommended in Section 8 of the SDS. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities
Store in cool, dry place. Store in original tightly closed container. Storage temperature: between 0 and 35°C. Store away from incompatible materials (See Section 10).

8. Exposure controls/personal protection

Control parameters

Occupational exposure limits
No exposure limits noted for ingredient(s).

Biological limit values
No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls
General ventilation normally adequate.

Personal protective measures

Eyes and face protection
If contact is likely, safety glasses with side shields are recommended.

Skin protection

Hand protection
Not normally needed. For prolonged or repeated skin contact use suitable protective gloves.

Other
Normal work clothing (long sleeved shirts and long pants) is recommended.

Respiratory protection
In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards
Wear appropriate thermal protective clothing, when necessary.

10. Stability and reactivity

Reactivity

The product is stable and non-reactive under normal conditions of use, storage and transport.

Chemical stability

Material is stable under normal conditions.

Possibility of hazardous reactions

No dangerous reaction known under conditions of normal use.

Conditions to avoid

Avoid heat, sparks, open flames and other ignition sources. Contact with incompatible materials.

Incompatible materials

Strong oxidizing agents.

Hazardous decomposition products

Thermal decomposition of this product can generate carbon monoxide and carbon dioxide.

11. Toxicological information

Information on likely routes of exposure

<table>
<thead>
<tr>
<th>Route</th>
<th>Effect</th>
</tr>
</thead>
<tbody>
<tr>
<td>Inhalation</td>
<td>When heated, the vapors/fumes given off may cause respiratory tract irritation.</td>
</tr>
<tr>
<td>Skin contact</td>
<td>May cause allergic skin disorders in sensitive individuals.</td>
</tr>
<tr>
<td>Eye contact</td>
<td>Direct contact with eyes may cause temporary irritation.</td>
</tr>
<tr>
<td>Ingestion</td>
<td>Expected to be a low ingestion hazard.</td>
</tr>
<tr>
<td>Symptoms</td>
<td>Direct contact with eyes may cause temporary irritation. May cause allergic skin disorders in sensitive individuals.</td>
</tr>
</tbody>
</table>
Acute toxicity
Not expected to be acutely toxic.

Skin irritation and corrosion
Prolonged skin contact may cause temporary irritation.

Serious eye damage/eye irritation
Direct contact with eyes may cause temporary irritation.

Respiratory or skin sensitization

Respiratory sensitization
Not a respiratory sensitizer.

Skin sensitization
Not classified. However: May cause allergic skin disorders in sensitive individuals.

Germ cell mutagenicity
No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Carcinogenicity
Not classifiable as to carcinogenicity to humans.

Toxic to reproduction
This product is not expected to cause reproductive or developmental effects.

Specific target organ toxicity - single exposure
Not classified.

Specific target organ toxicity - repeated exposure
Not classified.

Aspiration hazard
Not an aspiration hazard.

Chronic effects
Chronic effects are not expected when this product is used as intended.

Other information
No other specific acute or chronic health impact noted.

12. Ecological information

Ecotoxicity
The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Persistence and degradability
The product is expected to be biodegradable.

Bioaccumulative potential
The product is not expected to bioaccumulate.

Bioconcentration factor (BCF)
Not available.

Mobility in soil
The product is soluble in water.

Other adverse effects
No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Considerations on final disposal

Recommended methods for final destination

Residual waste
Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging
Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

Local disposal regulations
Collect and reclaim or dispose in sealed containers at licensed waste disposal site.

14. Transport information

National regulations
ANTT
Not regulated as dangerous goods.

International regulations
IATA
Not regulated as dangerous goods.

IMDG
Not regulated as dangerous goods.

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not established.

15. Regulatory information

Federal regulations
This product is not classified for Transportation in accordance with Resolution ANTT No 420 of 2004 amended by Resolution ANTT No 701 of 2004, ANTT No 1644 of 2006, No 2657 of 2008, 2975 of 2009. Additional information is given in the Safety Data Sheet.
Colombia. Controlled Substances (Resolution No. 009 of 1987 nationally regulating the transport & use of substances in subparag. f) of article 20 of Law 30 of 1986, as amended)
Not listed.

International regulations
- Montreal Protocol
  Not applicable.
- Stockholm Convention
  Not applicable.
- Rotterdam Convention
  Not applicable.
- Kyoto protocol
  Not applicable.
- Basel Convention
  Not applicable.

16. Other information
None known.

Significant information, yet not specifically related to the previous sections
